**Year of defense:** 2016

**Keywords:** Communication with the patient, hemodialysis, nurse communication skills, empathy in patient communication.

Thesis discusses the specific communication to nurses with patients on dialysis. The work has a theoretical part, divided into a general theory of communication and communication in nursing and a section dedicated to dialysis treatment, including a brief anatomy and physiology of the kidney. The practical part deals with the evaluation of communication with patients at the center DS in Chrudim, via questionnaire. Topics are chosen in terms of the theoretical background of general communication in nursing.
